Building Tour

Welcome to Dr. Vernon Fanning

01

Front Desk Reception

Fanning is Carewest's largest site with multiple programs including: EQual, RCTP, Neuro Rehabilitation, Chronic Complex Care, and YADS. This building has East and West Wings and includes 6 Units with 3 Pods - on each side .

02

Evacuation Kit - bring to Command Post

Find this kit behind Reception in the lower cupboard if we need to evacuate this site. Look inside to see what we need if we are evacuating Fanning.

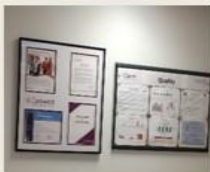

03

Read the Frame of Reference & Philosophy of Care

How would you demonstrate the Carewest value of Caring in your daily job duties?

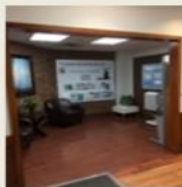

04

Read the Statement of Commitment to Health and Safety

Safety is everyone's responsibility. If you see something unsafe - take action.

05

Staff Health & Wellness Center

Go in and check your blood pressure.
Review the resources available. You can find counselling help via Homewood our EFAP (employee & family assistance program) provider on CAREWEB.

06

Client Service Manager (CSM) Photograph

Each unit has an introduction to the CSM. There are Family and Client Feedback Forms if they'd like to provide feedback to the CSM.

07

Smoking Room - Main floor

Behind reception, the smoking room should be clear of smoke. If not call PPS. No oxygen is allowed. Look inside the door for the fire extinguisher and fire blanket.

08

Cafeteria

Find the cafeteria. Daily hot & cold meals and snacks are offered. Check out the freezer. It has take home food and baking! Yummy.

09

Go into 1E Most Responsible Unit (MRU)

Each unit has a common dining room, kitchenette, nurses station and three resident pods: Red, Yellow and Blue. [1W is Back Up MRU] Look at the back of one pod to locate the emergency exit.

10

Emergency Annunciator Panel

Behind the Nurses Station is a panel that shows when fire or smoke alarms activate. The MRU will page Code Red and location 3 times. Code Red Responders for the shift will follow R.E.A.C.T.

11

On Second Floor Center Core find the Education Library

This board has Carewest Wide, Fanning, and Alberta education you can take advantage of. Meet your Educators and ask if you have questions.

12

Find the Chapel - just before 2W RCTP Unit

Our Chaplains Office is just inside. Church services are held here when allowed. You might be asked to bring clients here.

13

Find the Fire Pull Stations close to you

Pull the alarm if you smell smoke or see fire. This activates the Code Red Protocol. MRU will page, alarms will sound, lights flash, and fire doors close. Find fire doors in your unit. During a Code Red, Code Red Responders will follow R.E.A.C.T. What does A stand for?

14

Look for Fire Extinguishers

If the fire is smaller than your waist and no wider than your body use P.A.S.S. to extinguish: Pull the pin, Aim at the base of the fire, Squeeze the handle, and Sweep back and forth.

15

In Case Of Emergency

The MRU has emergency cell phones if you need to go outside during a Code Yellow search. Find the Emergency Cart, Falls Mats, and First Aid Kit on you unit.
