

About Carewest

As Calgary's largest public care provider of its kind and one of the largest in Canada, Carewest operates 34 locations aimed at helping people live more independent lives. Our spectrum of care is available to adults of all ages and includes long-term care, rehabilitation and recovery services, complex mental health, and community programs and services. We pride ourselves on our ability to change with the community's needs and we do our best to predict what those needs may be in the future.

Why Privacy Matters

Building public trust is important at Carewest and we achieve this through our Vision/Mission/Values. We believe that accountability directly strengthens public trust as we demonstrate being transparent and actively responsible for protecting health and personal information through compliance using proactive measures. Our goal is to clearly communicate Carewest privacy practices so that individuals feel confident that their data is handled securely and ethically.

Our Privacy Management Program Mission

Fostering a culture of compliance and transparency that strengthens public trust.
