Getting Started

The External Health Information Request Portal is a secure, web-based tool that enables external requesters to electronically submit and manage requests for health information. Using the portal, users can:

- submit requests for the release of health information
- upload authorization forms and supporting documentation
- securely download released health information

The portal streamlines the request process, improves security, and provides a convenient way to exchange health information electronically while supporting privacy and confidentiality requirements.

Benefits of the portal

- Secure electronic submission and delivery of information
- Reduced reliance on paper-based processes
- Faster and more efficient request management
- Convenient access from any internet-connected device

Who can submit requests

The External Health Information Request Portal is available to authorized external requesters seeking access to health information. Eligible users include:

- Lawyers and legal representatives
- Insurance companies
- Government agencies
- Law enforcement agencies
- Regulatory bodies
- Out-of-province healthcare providers
- Community healthcare providers who do not have access to the Provider Portal
- Other authorized third parties

Patients or their authorized representatives requesting access to their own health information must submit their requests through the Patient Portal, not the External Health Information Request Portal.

Before You Begin

To complete your request through the External Health Information Request Portal, please have the following information and documents ready:

- Patient information, including:
 - First and last name
 - Date of birth
 - Legal sex
- When applicable, a completed and signed Consent to Disclose Health Information form

Having this information available before starting your submission will help ensure your request is processed as efficiently as possible. You may also be required to provide additional supporting documentation, depending on the nature of your request.

How to access the portal

The portal can be accessed online through the provided link: [External Health Information Request Portal](#).

Authorization to Release Protected Health Information

Provide the required supporting authority and documentation to support your request for health information.

Authorization to Release Protected Health Information

Health Care Providers who are delivering ongoing care to the patient must clearly indicate this in their request for patient health information. All other requesters must submit a copy of their request along with all required supporting documentation (e.g., consent or authorization).

[Download Consent to Disclose Health Information Form](#)

* Required

File types: BMP, DOC, DOCK, JPEG, JPG, PDF, PNG, TIF or TIFF

Maximum file size is 10 MB.

[Upload a new document](#) 1

Additional Documents

Upload additional supporting documents if needed. Number of files allowed: 5

[Upload a new document](#) 2

To proceed with your request, upload the appropriate authorization or documentation supporting your right to obtain the requested health information.

- **Health care providers** requesting information for continuity of care must clearly indicate that the request is for continuity of care on the document being uploaded.
- **All other requesters** must upload a copy of their request letter along with all required supporting documentation, such as a signed consent or authorization form.
- If you require a consent form, select Download Consent to Disclose Health Information Form. Accepted file formats and the maximum file size are displayed within the portal.
- Upload under Additional Documents. Up to five (5) additional documents may be attached to your request.
- Use this section to submit documentation that demonstrates legal authority when the patient has not personally signed the consent form, including:
 - Wills
 - Letters of Administration
 - Guardianship Orders
 - Power of Attorney documents (where applicable)
 - Other documentation establishing legal authority to act on the patient's behalf

Important: Requests cannot be processed until all required documentation supporting authority and authorization has been received. Submitting complete documentation with your request will help avoid processing delays.

Purpose of Disclosure and Acknowledgement

Complete the following fields:

1. Select the appropriate **Purpose of Disclosure**.
2. Read the **Acknowledgement** and check the box: “I have read and agree to the acknowledgement.”
3. Click **Submit**.

4. If required fields are incomplete, a **You must fix these problems to continue** message will appear listing the items that need to be corrected. The **Submit** button will remain greyed out until all required fields are completed.

After You Submit a Request

Once submitted, your request will appear under the **Pending Requests** tab. You will receive email notifications as the status changes.
