Calgary, Alberta, T3E 2L3 & T3K 2A8

Ph: 403-686-8140 & 403-520-3350

Summary of Site and Services

C3 at Carewest Sarcee opened in 2001 to service clients in south Calgary. Carewest C3 Beddington opened its doors to the Calgary community in 2013 and offers programs and services to clients over the age of 65, living in north Calgary.

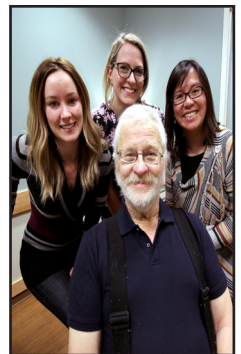

Comprehensive Community Care

A support program that helps older adults with health needs remain safe and independent in their own homes for as long as possible. Care is provided by an interdisciplinary team and consists of a medical clinic, day program, access to home support, transportation support, and access to a short-term inpatient treatment bed.

One stop shop

C3 provides coordinated medical care, rehabilitation, recreation, and social support through an interdisciplinary team of physicians, nurses, therapists, social workers, pharmacists, dietitians and healthcare aides through proactive health monitoring and timely support.

Who is eligible?

The program is designed for adults 65 years of age and older living in Calgary who are eligible for Alberta Home Care services and have complex medical needs requiring ongoing monitoring and support. Referrals to the C3 Program are made through Alberta Health Services (AHS) Home Care.

At the Carewest C3 Day Centre

C3 will assist you with arranging transportation to and from Carewest Sarcee or Carewest Beddington two days a week. Our team of health care professionals will support you to stay as healthy and independent as possible.

Social Opportunities

Social opportunities are an important part of the C3 program. The Day Center provides an ideal environment to make friends and take part in meaningful activities.

Physicians and Pharmacy

To help manage your health and well-being, and deliver continuity of care in a timely manner, we provide our own physicians. This means that once you join the program, one of our family physicians will direct your care.

Our pharmacy will provide your medications and our staff will help you in the transition process.
